Who we are

We are an award-winning accountancy and consultancy practice, covering all of the financial basics and beyond.

N

Our accountancy experts, strategic advisors, and tax specialists will also help to apply strategies in ways that can grow your business through implementing innovative ideas and embracing new technology. This means that at Nordens, we like to turn things on their heads and will always strive for the most effective solutions based on exactly what our clients want.

Our open-minded approach means that we remain proudly at the very forefront of the accountancy sector. We are constantly improving our services, which is integral to ours and our client's constant growth and development, achieving success in groundbreaking ways.

We're focused on the facts, the market opportunities and what you want to achieve; we've built our reputation on it.

How we do it

We stay **ahead of the curve** by developing new business support services which benefit our clients. At the end of the day, it's all about making their lives easier. This is achieved by delivering these services to a consistently high level with the expertise, experience, and insight to match. It enables us to provide an unrivalled calibre of business support, gently directing each client towards their goals.

We are more than just accountants. We look to forge long-term relationships with our clients. That's why we encourage you to meet with our welcoming and approachable team, to discover what we can do to take your business to the next level and beyond.

We provide a host of tailored services for businesses, groups and individuals alike. Our talented team use their vast array of knowledge and skillset to support you in any way we can.

You'll find that we cater to everyone with the same degree of dedication and expertise, whether you need one-off services or a more comprehensive package of facilities.

Whatever you need, **we are here to help**. Our rational, proactive and creative ethos helps accelerate business performance by challenging expectations and rectifying any commercial concerns, which might be holding your company back.

and many more....

Our Cloud Accounting

Our Cloud Accounting Division is a specialised service providing you with an efficient, personalised assistance from an accredited team of professionals.

You can rely on Nordens to help you navigate all of the financial aspects of your business, whether that's assisting with company payroll or helping you identify and rectify any discrepancies or suspicious activity on the books.

Bookkeeping can be time consuming, but it's fundamental to any well-run business. All financial aspects of your business, including payroll, budgets, taxes and expenses, must be recorded, helping you to organise and streamline operations.

Our experienced bookkeepers at Cloud Accounting Division thrive on the consolidation of data and are meticulous about processing it accurately and efficiently.

How will this help you?

Our service will support you, but not limited, to;

- Improve cash flow.
- Pay bills correctly and timely.
- Enhance your relationship with customers, suppliers and the tax office.
- Comply with HMRC's regulations on Making Tax Digital (MTD).

Our Strategic Advisory

Through our experience over the years working with clients who wanted to move their business further, we developed our own Strategic Advisory division.

Releasing yourself from business related anxieties shouldn't be a pipe dream. With an experienced strategic consultant by your side, all of those unanswered questions and difficult decisions suddenly become easier.

Strategic advisory with Nordens will offer you a fully tailored experience. Basing our analysis around your goals, whilst considering market trends, evaluations of competitors, and exploration of new business models, Nordens' strategic advisors work to develop the most suitable strategy for you and your current circumstances.

Whether you are a sole trader or run a business with a large-scale turnover, guidance and advice concerning corporate finance is essential to grow your business. If you're in need of a cash injection or capital funding to take your business to the next step, our advisors work closely with the best lenders on the market, ensuring you're given the desired support to thrive.

Releasing yourself from business-related anxieties needn't be a pipe-dream

We help to make those dreams reality, progressing your business and personal ambitions to give you full satisfaction in our services.

Our strategic advisors provide, but aren't limited to, the following:

- Digital Transformation
- Business Coaching & Accountability
- Financial Forecasting & Scenario Planning
- Business Systemisation & Turnaround
- Exit, Merger, & Acquisition Strategies
- Corporate Finance & Capital Funding
- Business Valuation
- Wealth Management
- Workplace Pensions
- EIS & SEIS Investment Strategies
- Forensic Accounting
- Team Development & Progression Strategies
- ESG Planning
- KPI Building & Reporting
- Global Integration & Overseas Transitioning

Tax Planning

At Nordens, our tax planning services offer comprehensive solutions for both businesses and individuals.

We go beyond compliance to identify tax-saving opportunities and help you achieve your financial objectives. Trust our experienced professionals to provide you with customised strategies that optimise your tax position and support your long-term success.

Here some of the ways our tax experts can help you and your business:

Tax Deduction Strategies

Our experts identify potential tax deductions specific to your industry, ensuring you take advantage of all available tax breaks. We provide guidance on deductible expenses, including employee benefits, travel expenses, research and development credits, and much, much more.

Capital Gains Tax Planning

Our experts help to navigate the complexities of CGT by providing guidance on tax-efficient investments, exemptions, reliefs, and allowances. We assist in structuring your asset sales and transfers to minimise CGT liabilities.

Research & Development

We're pretty big on R&D here at Nordens. Our dedicated team assists businesses engaged in innovative R&D activities in accessing government incentives. We help identify eligible projects and guide you through the complex process of claiming R&D tax credits, ultimately reducing tax liabilities whilst progressing and rewarding innovation in your business.

Entity Structure Optimisation

We analyse your business structure to determine whether you are operating as a sole proprietorship, partnership, limited liability company (LLC), or corporation. By choosing the right entity, we can help you optimise tax advantages such as reduced liability, lower tax rates, and increased deductions.

Pension Contributions

Our team advises on tax-efficient pension contributions, including maximising your annual allowance, utilising carry-forward provisions, and taking advantage of government incentives. We help you plan for retirement while optimising your tax position.

Income Tax Planning

We assess your sources of income and devise strategies to minimise your overall tax burden. We explore various income-splitting techniques, tax-efficient investments, and retirement planning options to ensure you make the most of your earnings.

Inheritance Tax Planning

We work with you to develop strategies that mitigate potential IHT liabilities, ensuring your assets are transferred efficiently to your chosen beneficiaries. We help you explore options such as trusts, lifetime gifts, and exemptions to optimise your estate planning.

Capital Allowances & Depreciation

We help to maximise tax benefits through capital allowances and depreciation. By identifying assets eligible for tax relief and finetuning depreciation schedules, we ensure you can claim the maximum tax deductions.

Audit & Assurance

At Nordens, auditing is one of our main areas of specialism and our dedicated team of quality auditors guarantees a comprehensive and thorough service to verify all financial information is compliant and up to date.

We are able to carry out any form of audit required for businesses, all within a cost-effective and time-sensitive manner.

Auditing helps organisations to comply with laws and regulations, identify potential risks and weaknesses, and overall improve their operations. It also helps to ensure that financial information is accurate, complete, and reliable, which is crucial for making informed decisions.

Our auditing division work cross-departmentally with all of our other divisions, including Strategic Advisory, using the verified audited information to discover gaps and areas of improvement for the business in question.

All our auditors at Nordens are fully qualified and have a vast range of experience. Some of the services they provide, but aren't limited to, include:

- Business Auditing
- SRA Audit
- Tax Auditing
- Voluntary Audit
- Financial Conduct Authority
- Pension or Grant Audit
- Charitable Audit

Be Safe In The Knowledge We're Professionally Certified

Our teams have a range of qualifications from The ICAEW (The Institute Of Chartered Accountants (ICAEW)) and the Association of Chartered Certified Accountants (ACCA).

We worry about the by-laws, regulations and ethical guidelines so you don't have to. That makes Nordens an ACCA accredited employer, as well as Professional Passport accredited, providing you with expertise, experience and knowledge to assist you wherever possible.

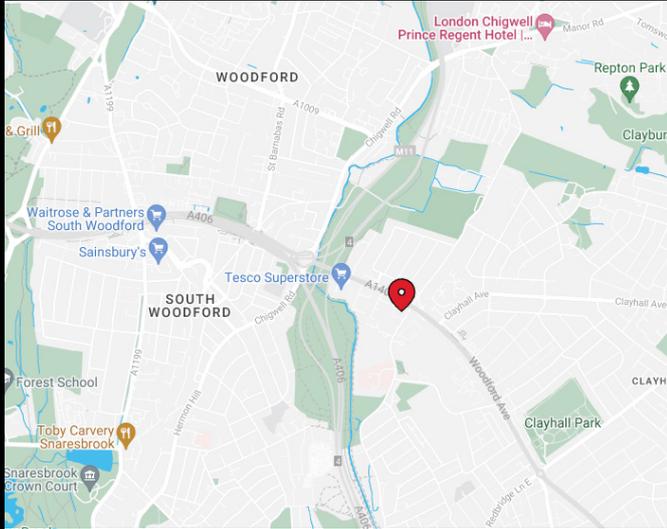

Think Ahead **ACCA**
